REALISE YOUR HIGHEST ASPIRATIONS

with one of the world’s fastest rising universities. NTU.

NTU PhD Scholarships

New knowledge is always found at the crossroads between disciplines. And embarking on a PhD at NTU in interdisciplinary research could put you en route to a breakthrough discovery.

NTU’s newly launched Interdisciplinary Graduate School is offering prestigious scholarships for outstanding graduate students interested in projects offered by one of the following centres:

- Energy Research Institute @ NTU (ERI@N)
- Nanyang Environment and Water Research Institute (NEWRI)
- Earth Observatory of Singapore (EOS)
- Singapore Centre for Environmental Life Sciences and Engineering (SCELSE)
- Institute for Media Innovation (IMI)
- Asian Consumer Insights (ACI)

Widen your exposure through overseas research attachment with one of NTU’s numerous global partners, comprising the world’s leading universities, research centres and industry players.

For a sample listing of specific projects that our candidates work on, please visit http://admissions.ntu.edu.sg/graduate

Requirements:

- Bachelor’s Degree from a reputable local/overseas university (2nd class upper and above or equivalent) in any discipline
- Singapore Citizen or Singapore Permanent Resident

Benefits for successful candidates:

- Full monthly stipend of up to SGD3,600 and tuition fees for 4 years
- Opportunities for overseas research attachment in renowned universities, research institutes and companies
- Opportunity for involvement in tutoring

Please email your complete resume and academic qualifications to Manager, Interdisciplinary Graduate School at wolee@ntu.edu.sg.

Applications close on 15 October 2011.
